What young people are doing at General Electric

Young engineer works on new ways to remove heat from atomic reactors

An atomic reactor running at full capacity creates a tremendous amount of heat in its core. By removing this heat and putting it to work heating water to make steam, atomic electricity is produced.

One of the men responsible for designing new, more efficient ways to remove heat from atomic reactors is 29-year-old Doctor Solomon Levy. Design Analysis Supervisor at the Atomic Power Equipment Department at Reactor Engineering Unit.

Levy's Work Interesting, Vital

To study this problem of heat transfer, G.E. recently constructed a heat-transfer system. By electrically simulating the heat produced in a reactor, it is possible to determine the maximum rate at which heat can be removed from a reactor to make steam.

Dr. Levy conceived the idea of building this complex system, designed it and supervised its construction. At present, Levy works with this system to study new problems of heat transfer and fluid flow encountered in atomic power plants.

25,000 College Graduates at General Electric

When Solomon Levy came to General Electric in 1953, he already knew the kind of work he wanted to do. Like each of our 25,000 college-graduate employees, he was given his chance to learn and realize his full potential. For General Electric has long believed that whenever fresh young minds are given the freedom to make progress, everybody benefits—the individual, the company, and the country.

Kittens Drop Last Tiff By 76-65 to Mesa J.C.

Brigham Young University's Kittens closed their basketball season Saturday night as they dropped a 76-65 decision to the Mesa Junior College Mavericks at Grand Junction, Colo.

Hampster by the loss of high scoring forward, John Gustin who didn't make the Colorado trip because of an eye injury suffered earlier in the week, the Freshmen failed to keep pace with the rugged J.C. outfit.

The Kittens weren't at their best Saturday night, according to Coach Bob Stunker, and some thing seemed to be lacking in their play.

Although Gary Miles did very good work on the backboards for the Brigham crew, the scoring was not consistent. Mesa's two big shooters, Banks and Wilson, countered 18 and 14 respectively for the Mavericks.

The wearings two big centers, Ray Thacker and Sandy Peterson, each had 14 to pace the Cougar scoring.

Mesa jumped to an early lead

in the contest and lead throughout. The Mavericks had a 36-23 halftime lead.

Brigham Young came back in the third quarter with a rush and tallied a big 34 points in the third quarter while Mesa made 22.

But Mesa wouldn't be deterred, and banged in 18 through the final canto while holding the Y's men to 8.

Wilson, Mesa's all-time leading scorer, was presented with various gifts during a halftime program.

USING YOUR HEAD—Peter Lysenko of the Brigham Young International Soccer Team attempts a pass over the head of Hollandia goal keeper by the use of his head. In soccer hands or arms cannot be used in passing the ball. The BYU tied the Hollandia squad 1-1. (Photo by Dan Gash)

Mild Upset...

BYU Soccer Team Ties Hollandia, 1-1

A top flight defense led the Brigham Young University International Soccer Club to an upset 1-1 tie with Hollandia Saturday afternoon on the West Field, in the Cougars' spring season soccer debut.

The upset was somewhat unbelievable, as Hollandia is currently holding down first place in the Utah Soccer Association in Salt Lake City, and the Holland team hasn't lost a single game all season. Besides that, Hollandia has topped first or second place in the Utah Soccer League standings for the past four years.

Peter Lysenko scored BYU's goal on a penalty kick about midway through the first half, and 15 minutes later, with only five minutes left in the first half, Hollandia packed through its only goal to tie the game and end the day's scoring.

Lysenko's score was set up when one of the Hollandia players touched the ball with his hands in front of his team's goal. This infraction of the rule gave Lysenko a penalty kick from 50 yards, which sailed past the outstretched arm of the diving Hollandia goal keeper.

The first half ended as the 1-1 tie. The teams took the field for the second stanza of play with the BYU kickers having

a wind against them, which made it hard to kick the ball out of their territory. The BYU team failed to cash in on it, bringing the ball down field.

That wind almost gave the Soccer Association team four or five goals, but some head goal tending by Cougar goal keeper, Frank May, halted the Hollandia drives.

The second half was more played on BYU's territory, as in the final four minutes of play the Cougars had two chances at the Hollandia goal, but failed to capitalize.

According to Brigham coach Norman Olsen, Lysenko and Raben Contreras were offensive standouts, while May, Harold Bodoni, Dean Stone, Harry Rayner, and Howard Hill highlighted the defensive work.

The Soccer Club will meet SC Rapids, a Dutch team, on West Field Saturday at 3 p.m.

Here was Saturday's line-up: goalkeeper, Frank May, right fullback, Gieder Wuerth, left fullback, Herb Bodoni, center halfback, Dale Stone, right halfback, Harry Rayner, left halfback, Howard Hill, center forward, Mike Morawski, right outside, Hal Morawski, right inside, Gus Castille, Glen Chase A-Kai, left outside, Ruben Contreras, and left inside, Peter Lysenko.

Library Develops Project On LDS Church Journals

SEVERAL PROJECTS in compiling and indexing Utah and Mormon history are soon to be completed. Library authorities reported.

Projects include indexing all copies of the Church Section of the Deseret News, Improvement Era, Relief Society magazine, Contributor, and the Millennial Star.

CURRENTLY for this work goes to Newton J. Bull of the library staff. In addition to his indexing work for the University and the Church of Jesus Christ of Latter-day Saints, Bull is working on a special project of compiling a research catalogue on published Utah and Mormon materials. This is an attempt to list every book, article, and pamphlet published anywhere in the world on Utah or the LDS Church.

Bull is currently chairman of the Brigham Young University history committee. An organization attempting to organize all material available concerning BYU.

BUT, EARLY became aware of the knowledge of Utah and the Mormon Church unavailable to the people and directed his work to making it available. He came to BYU in 1921. He has co-authored two books, *Fruits of Mormonism*, and *Scientific Research and Human Welfare*. In addition to this he has been co-authored with former BYU President Franklin S. Harris over 20 agriculture bulletins.

Discovery Program To Feature BYU Journalism Dept.

The story of the development of the newspaper in America will be told Sunday in Brigham Young University's weekly production of "Discovery" over KSTU-TV, Channel 5 in Salt Lake City.

The program is being presented by the BYU Journalism department, and will be broadcast from noon to 12:30 p.m. Participants will include Dr. Oliver H. Smith, Journalism chairman, and Edwin Butlerworth, News Bureau. Steve Hale, Savannah, Ga. senior journalism student; and Byron Butlerworth, 18-year-old son of Prof. Butlerworth.

Highlights of the program will include discussions and pictures of early colonial newspapers, the publishing achievements of Benjamin Franklin and others, and the role of newspaper in the Revolution and the Civil War. Samples of copywriting from these periods will be shown.

The program will also trace the development of printing equipment which made possible the rapid publishing of the modern daily newspaper. A working model of an old hand press will be displayed in connection with page proofs and cuttings from a present-day rotary press.

Health Committee Discusses Problems

Last week the health committee held its first meeting since the appointment of the first student representative John Ward, student body second vice president, attended the meeting in the absence of Wild Tring, president.

The health committee meets every two weeks to discuss problems of the Health Center. All complaints are given consideration, and if the committee feels the complaints are justified, Dr. Arrel Williams, director of the health center, is instructed to remedy the situation.

All students are urged to state their complaints to either Tring or Ward, who will represent the students at the committee meetings.

Many Areas of Western State To be Toured by Music Troupe

A CAPPELLA Choir, Symphony Orchestra, and the Madrigal Singers are leaving on tour Thursday to present concerts in various areas of the West until March 24.

Under the direction of Dr. John E. Hilday, the Madrigals will sing for the History Club in Phoenix, Ariz., March 23. They will also visit the Arizona Territory in Mesa. On the return trip they plan to see Bryce or Zion National Park.

THE MADRIGALS will present 16 concerts, in Monticello, and in Holbrook, Globe, Sedona, Tucson, Phoenix, and Mesa, Ariz.

An assembly at Reicks College in Bingham, 104, and a television appearance at Idaho Falls are on the A Cappella Choir's schedule.

Coed Loses Big Bills; Wants Them Returned

Two \$50 bills have been lost somewhere between Knight-Mannum Hall and the Women's Gym on lower campus.

Anyone having any information about the money may contact Loretta Riggs at Knight-Mannum Hall or the Security Office.

NEWELL B. Wright will lead the A Cappella Choir in their concert at Bury in Falls, Blackfoot, Rexburg, Idaho Falls, and Billings, Mont., and Lovell and Casper, Wyo.

Director Lawrence Smith and the Symphony Orchestra will present programs in Salt Lake City, Rexburg, Idaho Falls, Berkeley, San Francisco, and San Mateo, Calif. Singing in San Francisco is planned for the group.

... be sure to check your opportunities with STANOLIND

One of the five leading producers of crude oil and natural gas in the nation, Stanolind is a wholly-owned subsidiary of Standard Oil Company (Indiana), in its search for new oil and gas reserves, it maintains an active exploration and development program in the U.S., Canada and Cuba. The Company is also moving into the fast-growing field of petrochemicals.

Mr. H. A. Willis, Party Geophysicist for Stanolind, will visit this campus Tuesday, March 13, 1966, to interview June candidates for B.S. and advanced degrees in electrical engineering, physics, geology (with physics or mathematics minor) and mathematics (with physics minor). Stanolind has immediate openings within the United States and one or two openings in Canada. A limited number of summer jobs are available to Juniors who are majoring in these courses, and who intend to seek permanent employment in these fields upon graduation. Those who accept employment will be initially assigned to the Geophysical Department in the Rocky Mountain Division.

Excellent opportunities and a promising future are available in this growing company—now just 25 years old—for men who are capable and qualified. Salaries paid are among the highest in industry; benefit plans rank with the best.

Plan now to see Mr. Willis when he is here. For an appointment, see Mr. B. Keith Duffin, Director of Placement.
